

Health Technology Demands	
Medical Equipment	
1	Digital Radiographic Systems
2	Magnetic Resonance Imaging(MRI) Pet system Scanning Systems, Computed Tomography
3	Defibrillator system
4	RO system
5	Imaging system components
6	Advance Anesthesia Units
7	Radiotherapy system components
8	Laser systems
9	Laparoscopes, Surgical
10	Digital thermometers
Medical Equipment	
11	Foreign digital blood pressure gauge
12	Densitometers
13	Surgical Microscopes
14	Various endoscopy systems
15	Serum injection pumps
16	EMG&EEG
17	Apne monitoring system
18	Capnography
19	CPAP-BIPAP
20	Specialized surgical instruments
21	Anesthetic gas monitors
22	Specific respiratory mask (standard N95 or FFP2 and above)
Essential Equipment	
23	Catheters, Angioplasty, Balloon
24	Sutures
25	Cannula, Venous
26	Surgical mesh/Drapes

Dental Materials	
1	Polymers, Metals and Alloys
2	Ceramics
3	Composites
4	Clinical impression materials
5	Soft tissue substitutes, Bone substitutes
6	membranes
Equipment and Essentials (Dental)	
7	Unit
8	Turbine
9	Angel Dental

10	<i>Air motor</i>
11	<i>Files</i>
12	<i>Burs</i>
13	<i>Equipment for pathobiology of oral and maxillofacial</i>

<i>Hi Tech and Novel Equipment</i>	
1	<i>Types of Dental Lasers</i>
2	<i>Imaging Machines</i>
3	<i>CAD/ CAM</i>
4	<i>Navigation software</i>
5	<i>Robotic Dentistry</i>

<i>Preventive Substances and Medicines</i>	
1	<i>Analgesics</i>
2	<i>Mouthwashes</i>
3	<i>Fluoride Gel</i>
4	<i>Fluoride varnish</i>
5	<i>Probiotics,</i>
6	<i>toothpaste</i>
7	<i>Probiotic Agent</i>
8	<i>Equipment, accessories and products used for training in the field of Dentistry</i>

<i>Laboratory Equipment (IVD)</i>	
1	<i>Molecular diagnostic kits and equipment in the field of Genetics and Infectious diseases with the priority of Under Surveillance Diseases & HLA typing</i>
2	<i>Array based diagnostic system</i>
3	<i>Closed Automated test Systems such as Immunoassay based instruments including commercial controls and calibrators</i>
4	<i>Antisera and Reagents for definite diagnosis of microbial agents</i>
5	<i>Automated, high throughput test systems to be applied for national screening programs such as maternal or neonatal screening</i>
6	<i>Automated Immunohistochemistry and immunocytochemistry systems</i>
7	<i>Techniques and diagnostic tools based on Immunofluorescence microscopy and Flow cytometry</i>
8	<i>Specimen management/handling devices such as Evacuated tubes used for blood collection or transport systems</i>
9	<i>Diagnostics at Point of Care according to MOH</i>

	<i>announcements</i>
10	<i>Media and reagents used in cell culture related processes</i>
11	<i>Enzymes ,Antibodies ,Biological and Chemical reagents necessary to produce diagnostic kits</i>
12	<i>Controls and Reference materials</i>

<i>Health Information Technology (HIS)</i>	
<i>Practical systems for HIS</i>	
1	<i>PACS system in health</i>
2	<i>Simulation, artificial intelligence and smart systems</i>
3	<i>Management of health digital sources (services, education, payment, content, digital library)</i>
4	<i>Health information technologies assessment systems</i>
5	<i>Knowledge management in health systems</i>
<i>Comprehensive systems for HIS</i>	
6	<i>Smart health</i>
7	<i>Mobile health</i>
8	<i>Smart Hospital</i>
9	<i>Bioinformatics</i>
<i>Novel services and equipment in HIS</i>	
10	<i>Telemedicine</i>
11	<i>Micro robots, Nano robots and bioelectronics drugs</i>
12	<i>Health UAV</i>
13	<i>Health Virtualization</i>
14	<i>Health Mobile equipment</i>
15	<i>IOT based health services</i>
16	<i>Wearable, planting and digital swallow</i>
17	<i>Vital sensors</i>
<i>HIS Infrastructure</i>	
18	<i>Electronic health record</i>
19	<i>Health IT security</i>
<i>Database and data mining in HIS</i>	
20	<i>Data mining and Data ware house and health management information system</i>
21	<i>key and vital Centers for achieving national database of health information</i>
